

UNIVERSAL TREATMENT

DESTINATION

Ideal on all types of wood, healthy or damaged, inside or outside the house: wooden walls, doors, windows, beams, portals...

PERFORMANCES

BIActiv' formula guaranteed up to 20 YEARS, that destroys wood-eating insects and their grubs and prevents attack by forming a long-lasting barrier.

- Prevents the appearance of xylophagous fungi.
- Formula in compliance with European standards EN46, EN1390, EN370, EN118, EN113.
- Formula based on natural oil in micro emulsion that allows active ingredients to penetrate the wood deeply.
- Colourless. Does not stain the wood. Quick drying.
- May be covered with all V33 finishing products: woodstain, paint, varnishes, dyes...

Formulated WITHOUT ADDED SOLVENT and WITHOUT UNPLEASANT ODOUR.

Ready to use liquid.

PREPARATION

Ensure wood is bear, clean, dry and free from dust.

- Remove all kinds of finishing by using a stripper or proper remover. Sand until you get to bear wood and remove dust carefully.

HOW TO APPLY

- Application on damaged wood :

1 – Use a stiff brush to remove the loose flaking parts and replace or reinforce the severely damaged areas.

2 – Apply 3 coats with a paint brush or spray gun (low pressure) on the entire surface.

- Application on healthy wood :

Apply 2 coats with a paint brush or spray gun (low pressure) on the entire surface.

V33 ADVICE

- It is recommended to treat the wood preventively

20 YEARS EFFICIENCY WARRANTY

Performed according to the instructions and rules of the art, the V33 treatment provides a preventive insecticide and fungicide efficiency up to 20 years. For a good preventive effect, treated wood shall not be sanded, cut or re-cut. In case of persistent stains or extremely dirty wood, apply a few drops of undiluted Decking Cleaner. Rub with a stiff bristle brush then rinse with water.
