

VELATURA ECO

Ecological Primer For Water-Based Enamel Paints

Ecological, white, mat waterborne primer, based on new technology modified resins. Certified according to the criteria of the European Union Ecolabelling Board (EUEB). Classified in the upper category A+ in terms of indoor air quality. Suitable for indoor and outdoor application on surfaces like wood, glass, PVC, aluminium and properly prepared metal surfaces. Due to its special composition, it has

excellent filling and sanding properties, offering great adhesion to all previously painted surfaces. Low odour product, easily applied with very good levelling properties, without brush and/or joint marks. It can be overcoated with Vitex's water-based or solvent-based enamels.

Ecological paint

Indoor Air Quality

Green Building Rating System

Advantages:

- Excellent adhesion to wood, glass, hard PVC, aluminum and metal surfaces
- Covers and fills providing a perfect final finish
- Class A+ in Indoor Air Quality

PRODUCT FEATURES

TECHNICAL CHARACTERISTICS

Viscosity

90 ± 10 KU (ASTM D 562, 25°C)

Density

1,37 ± 0,02 Kg / L (ISO 2811)

APPLICATION FIELD

- Wood
- Old painted surfaces
- Glass
- Hard PVC
- Aluminium
- Galvanized surfaces

COLOURS

White

COVERAGE

One coat

11-14m²/L

Two coats

6-7 m²/L

DRYING TIME

Touch dry

30-60 min

Recoat

6-8 h

DILUTION

Water

5-15 %

PACKAGING

White

750 mL

2,5 L

SURFACE PREPARATION

APPLICATION

PREPARATION

Surfaces should be smooth, clean and dry, free from grease, dust, loose or flaking paint.

On new wooden surfaces scrape off the knots and then apply wood preservative Diaxyl Extra water-based.

To fill any cracks or holes use Acrylic Putty. Wet sanding is recommended for the surface preparation.

STEPS OF APPLICATION

1

Dilute with water 5-10% (brush/roller) or 10-15% (airless spray gun) and stir well before use.

2

Apply one or two coats by brush, roller or airless spray gun.

TOP COAT APPLICATION

After 6-8 hours the surface is sanded using a suitable sandpaper. Wipe surface to clean off loose dust particles and apply:

- Acrylic water based enamel paint Aquavit PU Eco or
- Solvent-based enameled paint Platinum PU

For applications of darker final coats, first apply one coat of Velatura Eco as it is or slightly tinted to the shade of final coat through Vitex Coloring System.

TIPS

- Application at 5-35°C and <80% RH. (interior use) / <70% RH (exterior use)
- Tools must be cleaned immediately after use with water and if needed, with soapy water or detergent.
- Recover unused paint for re-use. After

paint application, seal the container and store it for future use.

- Minimize paint wastage by estimating how much paint you will need.
- Do not dispose of liquid waste into ground water table. Unused paint

requires special handling for safe disposal.
